I am proud to express that I was part of the active Board that with effort and oppositions stepped forward to redecorate the lobbies and hallways to bring them up to date and achieve the look that they currently have.

My position as a Board Member is to contribute with my experience to maintain high standards of operation to respect the unique atmosphere of our Condo. The ability to integrate the new demands and desires within a logical operating cost. Avoid non-reasonable increases of the monthly maintenance fees to assure that our money is “invested” instead of plainly spent.

The most important premise to keep in mind is to secure the building maintain it protected by bringing it up to current standards and to live in a safe place, we call home. I thank you all for your unconditional support throughout the years, without it we could never accomplish such high level of success.
