

Gala del Conte
1121 Crandon Blvd. E 201

Candidate for TKB Board of Directors
March 2019

I am originally from Russia, lived for 20 years in Rome, Italy, and moved to the Towers in 2012 with my daughter Catherine and my husband, Vincent Plotnikov. Catherine is 14-year old a student at DASH (Design and Architecture Senior High School) and both Vincent, and I are full-time artists.

We chose the Towers because it is the best oceanfront condo on the island. We love the tranquility, security, and beauty of this location. As a proud owner, I am interested in doing everything possible to maintain the quality of our home, including ensuring that we are diligent in managing and containing costs.

I am a designer, painter, and sculptor (educated at the Art Institutes of Moscow and Rome)— so my greatest passions and skills are creative. However, success in the art world also requires strong organizational, financial, and management skills. In addition to my time creating, I run the business affairs and gallery relationships for both my husband and me. I pride myself on being as detail-oriented on our business matters as I am when creating artworks, and I feel that those “attention to detail” skills will be a great benefit to the Towers Board of Directors.

My years of living in different countries and cultures in Europe (Germany and France in addition to Russia and Italy) have provided me with a breadth of experiences, and my goal is to bring the “best of the best” ideas to our community at TKB. I also welcome the opportunity to contribute my artistic expertise on relevant condo projects that involve design and the selection of quality materials (e.g., hallways, gardens).

I am a full-time resident in the Towers for six years.

I want to make sure that our money and resources are put to work effectively and to ensure the beauty of TKB and the preservation of our unique home.

Thank you for considering my candidacy.
