Proposal 125625R

Date: February 11, 2019

asbestos, polychlorinated biphenyl ("PCB"), or other hazardous materials. If during installation DebonAir Mechanical encounters hazard materials not previously abated, work shall cease and the customer shall be notified. Customer shall be exclusively responsible for the abatement and removal of any hazardous materials.

General Conditions

1. All work is scheduled for our normal working hours of 7:00 am – 3:30 pm Monday through Friday unless otherwise stated above.
2. This proposal is valid 30 days from February 11, 2019.
3. Local Building permits may be required for this project however; the cost of local permit fees has been excluded from this proposal. All permit fees will be given to the customer and billed as a change order to this project. Documentation of the local fees will be provided along with the change order. All change orders related to permitting must be accepted and approved by the customer prior to construction.
4. Our price is based upon on the Customer providing a clean, clear, accessible and safe work area. DebonAir Mechanical will also require uninhibited access to the work space and surrounding area for the entirety of the job during normal working hours as well as after hours. Customer will provide a secure staging area at the construction job site for use by DebonAir Mechanical to receive and store materials.
5. It is assumed that all equipment and parts to be reused are in good operating condition. If it is found that any of these parts or equipment is not usable, the customer will be responsible for the cost replacement via a change order to the base contract.
6. Work performed by DebonAir Mechanical or its subcontractors will comply with all applicable Federal, State and Local codes and standards.
7. Deposit is due upon signing of this contract. No parts or equipment will be ordered until deposit is received.
8. This proposal is subject to acceptance of the attached DebonAir Mechanical Standard Contract Terms and Conditions.
